

The following is a list of reputable package, nuc and queen producers. If you haven't already placed an order I recommend doing so sooner rather than later in order to lock in the earliest possible ship dates.

CMBC member Erich Kress is currently taking orders for March 31 delivery of packages. The price is \$95 and reflects the quality of the Carniolan hygienic queens he installs in his packages. He also has \$105 packages and \$140 nucs with his own northern bred survivor queens available in early June. 518-567-4123

CMBC member Sam Comfort is taking orders for packages. Treatment free queens, packages, nucs and top bar hives. He can be contacted through his web site Anarchyapiaries.org or 406-396-8357
